## SEARCH AND RESCUE COUNCIL

<http://www.sarci.org>

### SARCI BOARD MEETINGS

by SARNews, [sarnews@sarci2.org](mailto:sarnews@sarci2.org)

The SARCI Board meetings are held on the third Wednesday of January, April, July, and October.

### ACTIVITY DOCUMENTATION

by Mykle, [mykle@sarci2.org](mailto:mykle@sarci2.org)

The SARCI activity database has been expanded to include all types of activities. All groups are encouraged to complete a Roster for all activities, including Missions, Training, Public Relations, Meetings, Special Events and other Activities. The Rosters can be scanned and sent to Records, or sent to the SARCI mailbox, or placed on the Records desk at the SARA House. Remember that times are important, but can be approximate. Access to the database is available to an authorized representative from each group.

### SABINO CALLOUT PARKING AT THE NORTH END OF SABINO CANYON ROAD

by SARNews, [sarnews@sarci2.org](mailto:sarnews@sarci2.org)

People are continuing to park outside of the SARA gate. Please park AFTER the gate to the SARA House (on the WEST side of the road, or in one of the parking areas). If you are going to drive into the canyon, please be sensitive to people who may need rides from the parking area.

### SARA HOUSE SCHEDULING

by SARNews, [sarnews@sarci2.org](mailto:sarnews@sarci2.org)

To prevent scheduling conflicts, the SARA Board of Directors has established the position of Master Scheduler. For the time being this position is being filled by Jason Bowman. Anyone planning an official SARA event (trainings, committee meetings, work parties, PR events, bike race support, etc) or any event to be held at the SARA House (such as trainings or meetings of other SARCI groups) must go through the Master Scheduler. The Master Scheduler will confirm if that date is available and put the event on the calendar. Eventually the Master Calendar will be published on the SARCI website, but for now it is only viewable to committee heads who request the link until all the bugs are worked out.

All SARCI members are welcome to attend any of our trainings. Please check the Event Calendar on our website (<http://www.sarci.org/SRDI.htm>) or call Vi Brown (762-0165) for training updates or changes.

Congratulations to team Beth/Mattie, and to team Gabi/Bear for passing SRDI's Basic Obedience! These K9 teams are now officially beginning their training with the Group. It has not been determined whether NASAR SARTech II will be offered at this year's AZ SAR Conference. Nonetheless, we will discuss some study times at this month's General Meeting.

SRDI meeting nights have been revised. The Board of Directors will meet the first Wednesday of each month at 106, 7 PM. Training Committee will meet the first Wednesday of each month at 6 PM, location to be determined (usually Tino's). General Membership meeting will continue on the second Wednesday of each month at 106, 7 PM.

SRDI has several PRs scheduled for September and October. Raytheon invited SRDI to present at a Brown Bag Lunch on 10/1/12 (PoC: Karen). This will be limited to only a few, due to Raytheon's security limitations. We also present to the Arizona Court Reporters Association 9/15/12, 3:30 – 5:00 PM (PoC: Karen). We have two PRs on 10/13/12: Kmart at Kolb/Broadway (PoC: Dave), and Petco's Community Pet Event at 22nd/Harrison (PoC: Karen). Be sure to put the 9/22/12 OEC refresher on your calendar.

When training informally, please ensure you work on established public lands/parks, follow all leash laws, clean up after your dog, and that "IN TRAINING" patches are attached to your dog and very visible. Stay mindful that you are representing SRDI and PCSD even when training on your own time.

## SOUTHERN AZ. MOUNTED SEARCH AND RESCUE

by Jerry Simmons, [jerry@simmonsautorepair.com](mailto:jerry@simmonsautorepair.com)

### **SAMSAR CALENDAR**

Sep 15, 16	09:00 Sat, Sun	<b>Southern Arizona Horse Exposition</b>	S.Az Equine Center, across from Oracle Ford, MP 100.
Sep 18	19:00 Tue	<b>SAMSAR General Meeting</b>	Substation 106, Tanque Verde & Catalina Hwy

While on vacation in Mayberry N.C. as usual Search and Rescue is busy. If you are needing more search and rescue activity I can go back to Mayberry. According to George, Colleen and Bill, I missed a long one. Lot of agencies involved. All three SAMSAR teams were telling me how well organized the search appeared to be. Nothing but praises, George even called a name (Mykle). After Mykle corrected George on radio procedure. (Instead of, "OPS--KE7WIX" George said "KE7WIX—OPS) George still gave Mykle Coo-doo's for doing an excellent professional job. He also gave his radio to Bill!. All three team member praised the operation. Good job.

FYI: a 72 year old male tour guide fell off Pilot (Mountain Knob) (Mount Pilot) N.C. the end of July. They had a hard time with access to him, 60 foot fall from a sheer Cliff. Solution: used two Mules to get the subject out from the base. Yes there is a place for equine in Search and Rescue.

Training: Summer wrapping up. Movement in the training department. OEC second recertification coming Sep 22. Looking at September to start counting rattlesnakes again, we have a few rookie horses to bullet proof under Search and Rescue condition. Adobe Vet. Clinic put on a good horse seminar on equine legs. There is more to medical training for SAMSAR than OFC, CPR and OEC.

Public Relations: Stuff in process. Can't discuss it yet. Have not finalized.

Membership: Two new prospective members with prior search and rescue experience from out of town. Relocated to Tucson and are interested in Equine Search and Rescue. Any one inquiring about SAMSAR membership please see our web site. <http://www.SAMSARaz.org>.

**SEPTEMBER TRAINING**

by Jason Bowman, [jrbowman@email.arizona.edu](mailto:jrbowman@email.arizona.edu)

The next component in this fall's technical rescue training sequence is Stranded Patient Pick-Offs. A classroom session was held on Tuesday 28 August. The field session will be held on Saturday 08 September, with a 07:00 rendezvous at PCSO Substation 106, Tanque Verde and Catalina Hwy. While the primary audience for this field training is experienced full-members, there will be plenty for you all to do. The training site has been selected to allow multiple viewing points for those who may not have other assignments during a particular evolution, hopefully allowing everyone to come away from the training having learned a lot. We are also planning to do multiple evolutions in order to allow everyone to rotate in and out of several different assignments.

Also, there may be representatives from the other MRA teams in our region in attendance, and many of our upcoming trainings as well. This would be a good opportunity for SARA members to meet members of our sister agencies. Members of the training committee are traveling to and observing trainings held by these sister teams. While the training committee wishes invitations to these outside trainings could be extended more widely, for now it is not practical to have more than a person or two attend the trainings. The primary goal of these initiatives is the sharing of ideas, and building of bonds between the teams to improve interagency cooperation when needed for missions. We are working towards some large, joint trainings between agencies, where everyone will be invited.

**OEC CORNER**

by John Gorski, [tucmj@att.net](mailto:tucmj@att.net)

The last SARA OEC Refresher will be on Saturday September 22. All refreshers start at 08:00, with instructors to arrive at 07:00 to set up their stations. A payment of \$10.00 will be due at the time of your refresher (ed: John confirmed this cost as half of last year). Make your check payable to SARA. All OEC card holders will need to present a current CPR card to attend a refresher (or your current card shown in a RECORDS listing). A group snack to share is always welcome.

If you have an OEC card that expires this year, instructions will be provided for acquiring a new card (wait for NSP records to include your refresher in about a month, then send a check to NSP).

Check the NSP website at <http://www.nsp.org> starting June 1 to download this year's OEC Cycle "B" refresher study guide.

<i>Mon 30 Jun</i> 17:10 – 19:00	<u>7/ 12/</u> 54ym hiker exhausted A hiker was reported to be exhausted well down trail. Deputy Dave made voice and visual contact from the lookout. <i>Wed 01 Aug</i> 17:40 – 02:30	<u>18/ 94/</u> 70ym hiker overdue A Forest Volunteer intended to hike to 7 Falls for the first time, having been used to just hiking up the road in Sabino. He made it to the falls and talked with trail runners who said he could hike up Bear and down Sabino to the road. He became disoriented at Pine Creek Crossing and continued up West Fork, spending the night above Hutch's Pool. Teams covered the 7 Falls Trail and canyon bottom from X0 to 7 Falls. A couple of teams hiked up Bear and Sabino came out at Gordon's Place.	<i>Bear Canyon Tr, Catalinas</i>	<i>Omaha8AW Survey2</i>
<i>Thu 02 Aug</i> 05:15 – 16:00	<u>21/ 157/</u> 70ym hiker overdue Teams from several counties and several agencies joined the search in the morning, covering the area that had been searched during the evening. In the afternoon, a fresh team was airlifted to the trail above Hutch's, and they soon made contact. The hiker was retrieved in good condition, but pretty tired, and was flown out.	<i>Bear Canyon Tr, Catalinas</i>	<i>DL BP NPS FS CAMRA</i>
<i>Sat 04 Aug</i> 16:40 – 21:00	<u>16/ 62/</u> 2 hikers exhausted Hikers coming down trail were unable to continue below the Overlook. The hasty team kept them from wandering very far off trail. <i>Sun 19 Aug</i> 17:55 – 21:45	<u>16/ 37/</u> 2 female hikers out of water Two hikers parked in Summerhaven, hiked up Aspen Draw and down into the Wilderness of Rocks. They missed the base of the Lemmon Rock Trail and continued to Mt Lemmon Trail, then turned around. They ran out of water and called for help, but did not want to sit and wait for teams to reach them, found the junction, and continued east rather than climb Lemmon Rock. They headed out of Marshall Saddle on Mint Spring Trail, since it appeared on their map to lead more directly to their vehicle, but right through lots of lightning.
