<u>Nov 10</u>	<u>09:00 Sun</u>	Annual Board Meeting and Pot Luck	SARA House, 5990 N Sabino Canyon Rd

In August, our training consisted of an extensive debrief of our shortened Lake Patagonia mission, and we reviewed the updated medical bag layout. The immediate bleed stop and breath supporting devices are on top. A line of monsoonal storms, stretching from Cananea to Sonoita and tracking directly toward us, caused us to postpone in-water training for the day.

Please keep posted and check Doodle for an update on Sept and Oct training. They may be in Lake Patagonia or at a specially designated pool nearby.

In November we will hold our annual board meeting and potluck at the SARA House.

BOARD OF DIRECTORS

The Board meets monthly on the third Thursday at 19:00, and meetings are open to all. A Teams link for remote participation is included in each month's published agenda.

by Jason Schlueter, SARApresident@sarci.org

Board Inner-Workings and Transparency

With each new class comes new questions and new insight into SARA. We are considering bringing a new segment to our monthly meetings where questions could be submitted to the board and board members would be available to answer them. This may be an opportunity for new members to not only meet some board members, but to have questions answered that they may be too shy to ask in a larger forum. We haven't ironed out exactly how this will work yet, but in the meantime, if you have a question that you'd like us to address, please send it to private-sarabod@sarci.org and we will take it from there. At the very least, we will respond via email or schedule further discussion at a board meeting.

IT STATUS

by Jason Schlueter, jason.schlueter@sarci.org

Multi-Factor Authentication

Microsoft has been saying for years that they will enforce multi-factor authentication for all users of its Microsoft 365 platform. This is a basic part of modern security and is probably part of your life already in some form. If you would like to set this up for your account now in order to not be surprised when they force it upon the organization, contact the saratechnology@sarci.org and we can get it enabled for you. This will likely be turned on by default with the next class and with new accounts moving forward.

Distribution Lists

We would like to remind and encourage people to send communications to distribution lists instead of directly to an individual. As we are a volunteer organization, there is no guarantee that an individual will respond to your email, even if they are a reliable contact. Our policies are very clear that family and work life come before SARA activities. If you are frustrated by the lack of response from an individual, understand that the committee email distribution list will usually get your email in front of someone who can respond in a timely manner.

Remember, the email list to reach ALL SARA members is ALLSARAMEMBERS@sarci.org.

- (1) Clutch + Offset Carabiner**
- (1) Rigging Plate + Carabiner**
- (1) Extra Pulley + Carabiner**
- (1) Single Pulley + Carabiner**

These are the new tech bags.

They are duplicates of each other and any 2 bags contain our previous tech bag plus 1 pulley and 1 piece of edge pro.

The Clutch is now primary for our systems and each bag weighs significantly less than our previous bags. These bags can be split between two rescuers in the same team but both will be needed to produce our current system.

Something to remember when grabbing gear.

TECHNICAL SKILLS: UPDATED TASK BOOKS

by Sarah Truebe, sarah.truebe@sarci.org

Changes have been made to the Task Books to simplify and tighten-up training and operations:

- Update to the Safety Analysis Section
- Removal of the Operations Task Book Level
- Removal of the Webbing Stokes Tie-in replaced with the FERNO Basket Patient Harness
- Addition of three “new” knots: Bowline, Alpine Butterfly and Clove Hitch
- Change to the Bowline rope anchor instead of the Tensionless
- Addition of 3 optional task books items
- Only Technician Committee Members can complete signoffs

This new task book is on the SARA Documents page online. If you are currently working on a task book you are welcome to transfer those signoffs that are identical to the new Awareness task book, but please keep your original one and submit both. In addition, task books can now be completed digitally via ERM and will be live by 9/1/2024.

TECHNICAL SKILLS: UPDATED MANUALS

by Sarah Truebe, sarah.truebe@sarci.org

Changes have been made to the SALT/Awareness and Technician Manuals to align with the update to the CLUTCH and Task Books. These new manuals are on the SARA Documents page online. There are significant updates that should be reviewed individually including but not limited to:

- The replacement of the webbing Stokes tie-in with the FERNO Basket Patient Harness
- Removal of the MPD operations replaced with CLUTCH operations
- The addition of three “new” knots (bowline, butterfly, and clove hitch)
- The addition of Edge and Rappelling operations
- Updates to the gear inventories
- Significant changes to the Technician Manual for over-the-edge operations

Each manual also has updated photo addendums to assist in understanding the new skills. Many of these skills can be self-taught (knots in particular), but can be learned or reviewed at any of the upcoming technical trainings.

TECHNICAL SKILLS: CALENDAR

by Sarah Truebe, sarah.truebe@sarci.org

All trainings are tentative until they appear on the Master Calendar and are announced via email.

All Level signoffs are available at all trainings; field signoffs are available at Personal Rope Skills, Field Trainings, Tower Trainings, and quarterly major Technician Trainings. No signoffs are available at Technician Team Meetings.

This year we are due for our MRA Technical recertification, so stay tuned for prep dates for that recertification.

Tech Taskbooks are included under “My Stuff” in ERM. If you prefer paper to be able to view it all in one place, those files can still be found on the SARA Documents page, but all taskbooks will now be managed through ERM.

The Clutch Supplement was due on 7/1/2024 or you lost FQ status. Your overall rope skills taskbook reverted to whatever level Clutch supplement you completed on 7/1/2024.

Any questions on the schedule or taskbooks, please contact Sarah Truebe (sarah.truebe@sarci.org) or Richard Hounshell (richard.hounshell@sarci.org).
